SUMMARY

Software and AI Engineer, specializing in software development like cross-platform mobile development with Flutter and full-stack web development. Built an AI-powered collaboration platform as a graduation project and completed an automation internship at Schneider Electric. Placed first in the Google Developer Group Flutter course and serve as an active member of the GDG mobile team. Seeking a software engineer role focused on building real, user-facing products.

EXPERIENCE

University Google Club (GDG) - Mobile Team Member Jan 2025 - May 2026

- Placed 1st in the Flutter Development Course run by Google at the university and joined the team.
- Helped organize and run developer events across multiple universities as part of the AOU GDG mobile team; the greatest one of them is Devfest 2026 in Cairo.
- Participated in many workshops as an instructor.

Schneider Electric - Automation Intern July 2025 - Aug 2025

- Completed a structured automation internship covering industrial automation (PLC, SCADA, DCS), process control, and classic control systems.
- Performed data analysis and data cleaning using Microsoft Excel.
- Produced technical designs and drawings using AutoCAD.
- Gained exposure to supply chain and logistics, networking, cybersecurity, and IoT within the context of digital transformation.

ACHIEVEMENTS

Egyptian Collegiate Programming Contest (ECPC) - Competitor August 2026

- Competed in a 5-hour collegiate competitive programming contest as part of a 3-person team.
- Solved algorithmic and data-structure problems under strict time constraints.
- Applied problem-solving, algorithmic thinking, debugging, and time-management skills in a high-pressure environment.
- Collaborated with teammates to analyze problems, develop solutions, and optimize approaches.
- Placed among top 10.

EDUCATION

2022 - 2026 Bachelor's Degree at **Arab Open University** in Computer Science

PROJECTS

Collab Workspaces

Collab Workspaces - Graduation Project An AI-powered full-stack web application for team collaboration, supporting time management, remote work groups, and teacher-student groups. Built with a Next.js front end, a Node.js back end, and Supabase. Features an AI chatbot, a summarizer, and a quiz generator.

Encrypted Password Manager

Encrypted Password Manager A local, offline password manager and generator that stores credentials in an encrypted vault. Built in Python with AES-256-GCM encryption.

Movies App — Route Flutter Mobile Application Final Project

- Developed a cross-platform movie discovery application using Flutter and Dart.
- Implemented a modern, responsive mobile UI for browsing and exploring movie content.
- Integrated external movie data through REST API services.
- Implemented movie browsing, search, and detailed movie information features.
- Applied Flutter development principles including reusable widgets, navigation, state management, and API integration.

COURSES

- Tips Hindawi - LLMs Internship(Aug 2026 - Oct 2026)
- Depi - Microsoft Machine Learning Engineer(June 2026 - present)
- Huawei - HCCDA-Tech Essentials Course(Jul 2026 - Aug 2026)
- iti - Summer Training 2026 Cybersecurity(Jul 2026 - Aug 2026)
- Route: Mobile development diploma.(April 2026 - Present)
- Google AI, Flutter, and Cybersecurity Courses.(July 2025 - Aug 2025)
- Flutter Development Diploma on-site in EraaSoft.(March 2025 - Aug 2025)
- Software Engineering.(Oct 2024 - Feb 2025)
- Algorithms and Data Structures.(Oct 2024 - Feb 2025)
- UI/UX Mobile App Design(Mar 2024 - May 2024)
- Operating Systems (Linux)(March 2024 - June 2024)
- CCNA (Cisco Certified Network Associate)(Jan 2023 - March 2023)
- Mastering Python Diploma.(Jan 2023 - March 2023)
- Front-End Web Developer Diploma (Jan 2022 - April 2022)

SKILLS

Tech:

- Programming Languages and Frameworks: Python (Numpy, Pandas, and Matplotlib), Java.
- Web Development: HTML, CSS, JavaScript, PHP (Laravel), React, Angular, Node.js, Next.js, WordPress.
- Mobile Development: Flutter, Dart, React Native.
- UI/UX Design: Adobe XD, Figma.
- Tools: Microsoft Office (Word, Excel, PowerPoint), AutoCAD.

Soft Skills:

Problem Solving, Teamwork and Collaboration, Communication, Adaptability, Eagerness to Learn.

LANGUAGES

Arabic (Native), English (Professional), German (Beginner)
